Specialty Certification for Correctional Mental Health Professionals

Professional Advancement
Mental health professionals in the correctional environment face unique challenges. They must provide effective, efficient care to a high acuity population while facing strict security regulations, crowded facilities and the myriad legal and public health considerations unique to this specialty. To meet these challenges, continual professional growth is essential. Specialty certification provides formal recognition for practitioners who have engaged in a process of ongoing, focused and targeted professional development. Specialty certification in correctional mental health is a validation of your dedication to continuing competence and quality service delivery.
