January 7, 2014

National Commission on Correctional Health Care
1145 W. Diversey Parkway
Chicago, IL 60614

To Whom It May Concern:

The Georgia Department of Corrections would be honored to co-host the 2014 Spring Conference of the National Commission on Correctional Health Care being held in Atlanta April 5-8, which will also include attendees of the Academy of Correctional Health Professionals and the Society of Correctional Physicians.

As the nation’s fifth largest correctional agency, the Georgia Department of Corrections commends the mission of the National Commission on Correctional Health Care to improve the quality of health care in our nation’s jails, prisons and juvenile confinement facilities.

It is with pleasure the Georgia Department of Corrections welcomes the participants of this Spring Conference to Atlanta and allowing us the opportunity to extend southern hospitality to our colleagues.

Sincerely,

Brian Owens
Commissioner
