MHM is proud to introduce...

Centurion™
the next generation of correctional healthcare is here today

Michael Pinkert
Founder, Chairman & CEO
MHM Services, Inc.

We founded MHM in 1981 to provide acute care hospitals a better management solution for their inpatient psychiatric units. In the 1990's we transitioned into the corrections market, and became the leading national provider of correctional behavioral health services. Today, we see needs in the broader correctional healthcare spectrum for a better managed care solution.

The Changing Landscape of Correctional Healthcare
National healthcare reforms and continued budget pressures will make the challenge of staffing and efficiently managing correctional healthcare programs more difficult than ever before. Correctional agencies will need a healthcare system that delivers the level of expertise and proven results in staffing, clinical operations, and client satisfaction that MHM is known for, coupled with a new level of managed care resources to contain costs - a level historically unavailable in correctional settings.

Introducing Centurion
MHM formed Centurion in 2011 in partnership with Centene Corporation, a Medicaid managed care company with over 3 million covered lives in 18 states. Centurion offers elements of managed care perfected in state Medicaid programs. Combined with some of the correctional industry's most experienced healthcare managers.

A Winning Solution
The marketplace is responding favorably to our Centurion model. We are proud to announce new correctional medical contracts in Massachusetts, Minnesota, and Tennessee. We look forward to demonstrating the "Centurion difference" in the coming months.

FREE! OPENING SESSION

**Latest Developments and Trends in Infectious Disease**

**April 7, 8:00 am**

Jonathan Mermin, MD, MPH
Director, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention

Hear firsthand about correctional health care and the latest on HIV/AIDS, hepatitis, sexually transmitted diseases and tuberculosis from the director of this key CDC $1 billion budget national center. Dr. Mermin has served in a variety of capacities in the United States and Africa on infectious disease, including HIV, malaria, TB and emerging infections.

WHO SHOULD ATTEND

This conference will offer continuing professional education and networking opportunities in a richly diverse professional forum. Attendees represent all correctional health care disciplines and levels of experience. It is an unparalleled opportunity to meet, learn and grow your expertise. Correctional health care providers and administrators of all disciplines as well as custody staff, legal professionals and all others with an interest in correctional health care will gain by attending this event.

TOUR

**Sunday, April 6, 1:30 pm – 3:30 pm**

DeKalb County Jail

Transportation will be provided. Learn about health care services and procedures in this NCCHC-accredited facility. There is no charge for this tour but registration is required.

NEW DIRECTIONS AND OPPORTUNITIES

Correctional health care is constantly changing — from the impact of new laws like the Affordable Care Act to new clinical guidelines and evidence-based practices for treating chronic and acute disease and mental illness. Health care providers in correctional settings can positively affect not only the physical and mental health of their patients while they are incarcerated but also help ease the burden on community health systems by ensuring inmates are appropriately diagnosed and treated prior to release. Connect with leaders in the field and grow your professional network. Catch up, keep up and find new opportunities to enhance the high quality care you provide, save time and money and realize your professional potential.

CONTINUING EDUCATION

EDUCATIONAL OBJECTIVES

- List major health care issues that commonly affect incarcerated individuals, including diabetes, hepatitis, HIV, hypertension, mental illness, oral health and substance abuse
- Describe current legal, ethical and administrative issues and ways to prevent potential problems that arise in correctional settings
- Employ new practices for the treatment of major health care issues in order to better manage common medical, nursing, dental and mental health problems found in correctional settings
- Express increased understanding of common correctional health care issues by exchanging ideas with colleagues about new developments in specialty areas

The maximum CE hours indicated below include participation in preconference seminars.

**CCHPs**: Certified Correctional Health Professionals may earn up to 26 contact hours of Category I continuing education for recertification.

**Nurses**: The National Commission on Correctional Health Care is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. NCCHC designates this educational activity for a maximum of 26 contact hours.

**Physicians**: The National Commission on Correctional Health Care is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. NCCHC designates this live activity for a maximum of 26 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Psychologists**: The National Commission on Correctional Health Care is approved by the American Psychological Association to sponsor continuing education for psychologists. NCCHC maintains responsibility for this program and its content. This educational activity has been approved for up to 26 hours of credit.

**Social Workers**: NCCHC has applied for 26 credits from the National Association of Social Workers.

To receive continuing education credits, log in on-site or from your home or office after the conference at [https://orders.ncchc.org/evaluations.aspx](https://orders.ncchc.org/evaluations.aspx).
ATLANTA  EASY TO GET TO, HARD TO LEAVE

Atlanta is the country’s fourth most popular meeting destination and called Hot-lanta for a reason. It’s a fun city that has it all: big business, a sophisticated art scene, world-class museums, top-end dining, vibrant fairs and provocative theaters, each with a hint of the Southern charm for which the city is known. The only problem will be selecting which things you want to do!

Hyatt Regency Atlanta is located in the heart of downtown Atlanta on Peachtree Street. The hotel is a convenient drive from Atlanta’s airport, connected to the city’s MARTA transit system and just blocks away from the city’s major destinations, including the Georgia World Congress Center, the Georgia Dome, the Georgia Aquarium and the World of Coca-Cola.

Check out www.atlanta.net for more great ideas on where to go and what to do!

FIRST-TIME ATTENDEE ORIENTATION

Sunday, April 6, 6:30 pm – 7:00 pm
Will this be your first time joining us for the Spring Conference on Correctional Health Care? Plan to attend the First-Time Attendee Orientation. NCCHC staff members will welcome you and give you tips on how to navigate the conference like a pro.

GAIN A PROFESSIONAL EDGE: INVEST IN CCHP CERTIFICATION

Sunday, April 6, 1:00 pm – 3:00 pm
The CCHP, CCHP-MH, CCHP-RN and CCHP-A exams will be offered. Don’t miss this opportunity to earn this important professional credential. Complete your application by February 28 to be eligible to take the exam in Atlanta. For more information or to apply, visit www.ncchc.org/CCHP.

SCP EDUCATIONAL CONFERENCE

Sunday, April 6, 8:00 am – 4:30 pm
The Society of Correctional Physicians’ all-day conference, Violence and Injury: Trauma and the Correctional Patient, will provide up-to-date knowledge about key issues facing physicians working in prisons, jails and juvenile facilities. It will address medical and mental health aspects of PREA, guns and gunshot wounds, sports injury, sex trafficking, a hands-on session on splinting and more. Separate registration is required at www.societyofcorrectionalphysicians.org.

I really liked the fact that the whole conference is related to correctional settings — it is a different world!

—Attendee, 2013 Spring Conference
Specialty certifications for qualified mental health professionals and registered nurses

**CCHP-MH** Correctional mental health professionals face unique challenges. They must provide effective, efficient care to a high-acuity population while facing strict security regulations, crowded facilities and myriad legal and public health concerns. Specialty certification recognizes dedication to quality service delivery. Eligibility is extended to qualified mental health professionals as defined by NCCHC’s Standards for Mental Health Services.

**CCHP-RN** Specialty certification makes a difference—to the patients whose care is provided by certified correctional nurses, to employers who desire top-notch nurses on staff and to the nurses who attain the credential. CCHP-RN certification recognizes registered nurses who have demonstrated the ability to deliver specialized nursing care in correctional settings.

Advanced certification for seasoned professionals

**CCHP-A** The CCHP-Advanced program recognizes CCHPs who have demonstrated excellence, commitment and contribution to the field of correctional health care and their relative discipline or profession. Advanced certification requires at least three years of participation in the certification program, completion of a detailed application and demonstration of extensive experience in and 360-degree knowledge of correctional health services delivery.

For all professionals working in correctional health, including administrative and support staff

**CCHP** The NCCHC Certified Correctional Health Professional program recognizes your mastery of national standards and the knowledge expected of leaders in this complex, specialized field. The CCHP credential is a symbol of achievement and leadership that provides immeasurable benefits, including professional recognition and pride. It is also a stepping-stone (and an eligibility requirement) toward advanced and specialty certifications.

Exams are administered several times throughout the year. Apply today and join the thousands of correctional health professionals who have earned the distinction of certification from NCCHC.

For more information, visit [www.ncchc.org/CCHP](http://www.ncchc.org/CCHP).
This grid shows all of the preconference seminars and conference concurrent sessions. Maximize your learning and your CE hours by registering for both! Save money when you register by February 27!

* Approved for continuing education credit by American Psychological Association
Just like health care, learning doesn’t take the weekends off. Sign up for preconference seminars and get the extra information you’ll rely on in 2014.

P-01 An In-Depth Look at NCCHC’s 2014 Standards for Health Services in Jails
Saturday, April 5, 9:00 am – 5:00 pm
Richard Clarke, MD, CCHP, Berkshire County Sheriff’s Office Jail and House of Correction; Jeffrey Alvarez, MD, CCHP, Maricopa County Correctional Health Services

These seminars will discuss the new 2014 Standards, which are NCCHC’s recommendations for managing medical and mental health care delivery in adult correctional facilities and the foundation of its accreditation program. Groundbreaking changes in these editions have the potential to reduce the costs of operations as well as accreditation, while at the same time providing a framework for improved patient care and outcomes. Whether or not your facility is accredited (or plans to be), these practical seminars will give an overview of the changes and guidance in how to achieve and demonstrate compliance. You will leave equipped to implement quality improvements that will lead to more efficient and effective delivery of services, better patient health care, fewer adverse events and reduced liability risk. The instructors will cover changes between the 2008 and 2014 Standards, helping attendees prepare for the CCHP exam on April 6. The registration fee includes a copy of the relevant Standards (jail or prison) — an $80 value.

P-02 An In-Depth Look at NCCHC’s 2014 Standards for Health Services in Prisons
Saturday, April 5, 9:00 am – 5:00 pm
B. Jaye Anno, PhD, CCHP-A, Consultants in Correctional Care; Joseph Penn, MD, CCHP, University of Texas Medical Branch

P-03 Prison Rape Elimination Act: Required Training for Health Staff
Sunday, April 6, 9:00 am – 12:30 pm
Robert Dumond, MA, LCMHC, Just Detention International

The U.S. Justice Department requires jails, prisons and juvenile confinement facilities to provide specialized training to medical and mental health personnel on specific areas of the law surrounding the Prison Rape Elimination Act. Attend this seminar to receive training on how to detect and assess signs of sexual abuse, preserve physical evidence and respond effectively and professionally to victims, all tailored for the health professional. This course will use the curriculum developed by NCCHC and the National PREA Resource Center.

P-04 The Affordable Care Act and How It Will Affect Correctional Health Care
Sunday, April 6, 9:00 am – 12:30 pm
Therese Brumfield, MBA, CCHP, Conizon

Major provisions of the Affordable Care Act take effect in 2014. Millions of individuals in jails who have not yet been adjudicated will be eligible for coverage. This seminar will discuss how the ACA will affect health care in corrections, with a focus on what correctional health care professionals must consider to meet the law’s requirements and take advantage of the opportunities presented by health care reform. Setting up systems and coordination with state Medicaid agencies and other organizations will be critical. With new coverage opportunities, correctional facilities may see significant savings on health care.
P-05 Reducing Your Risk: Legal Requirements Translated into Practice

Sunday, April 6, 1:30 pm – 5:00 pm
Deana Johnson, JD, MHM Services, Inc.; Dan Comisky, MD, New Hampshire Department of Corrections

This highly interactive presentation combines the correctional risk management experience of a lawyer and physician who have spent their careers practicing in this unique field. While each correctional system is unique, this presentation provides practical guidelines for reducing risk through comprehensive written protocols, continual training, strong CQI and peer review programs, clear communication of potential claims and early assessment of dangerous suits. Learn how to reduce risk without overburdening the staff.

P-06 Successful Assessment and Management of Suicidal and Self-Injurious Behaviors

Sunday, April 6, 1:30 pm – 5:00 pm
Dean Aufderheide, PhD, Florida Department of Corrections

Suicide and serious self-injuries are sentinel events in jails and prisons and effective management of these behaviors is essential. Decisions must be clinically justifiable, precautions implemented quickly and documentation legally defensible. This seminar will focus on the “what works” principles of risk management in ensuring that safety and treatment services match the level of the assessed needs of inmates at risk for these behaviors. It will discuss best practices for identifying imminent warning signs and risk factors and how to differentiate self-injurious from suicidal behaviors. Participants will identify key policy issues in implementing a prevention program and learn the salient skills necessary to effectively assess and treat self-injurious behaviors. An innovative program to create self-injury profiles will be introduced and participants will engage in case studies and learn how to reduce suicide rates and incidents of deliberate self-harm.

CO$T-CUTTING CORNER

Everyone’s looking to stretch their dollar a bit further this year, so we’re doing our best to help make that happen. Because fresh ideas are the one currency you can count on in a tough economy, here are some ways you can attend and save more.

$ Stay in the NCCHC room block to get the lowest hotel rates.
$ Take the MARTA rapid transit for under $3 from the airport.
$ Take advantage of the free lunch on Monday and Tuesday.
$ Academy members save $75 on the registration fee.
$ Most importantly, register by February 27 for significant early bird savings on your registration fee.

VISIT THE EXHIBIT HALL

Visit the exhibition to meet new suppliers who can save you time and money and help you maintain and improve quality of care. From medications to health care management, from mental health to dental health, pharmacy and surgical products, you’ll find the resources you need in the exhibit hall. The exhibit hall will be open on Sunday evening, Monday morning and Tuesday morning. The NCCHC raffle will take place Tuesday morning. Plan to be there to pick up your prize!

Interested in exhibiting or sponsorship?
Contact sales@ncchc.org or call 773-880-1460 ext. 298.
EXCEPTIONAL VALUE
Registration is $345 for up to 12 hours of stellar continuing education designed specifically for correctional health professionals when you sign up by February 27. That’s only $28.75 per credit hour, and the irreplaceable face-to-face networking is FREE! Add preconference sessions and take home 26 continuing education hours. Sign up by April 1 and take $25 off the on-site rate. After April 1, registration must be done on-site.

Register online at www.ncchc.org/spring-conference.
For fax or mail payment, see the registration form on page 12.

CONFERENCE PROCEEDINGS
Proceedings will be available online. You will receive the link by email before the conference. Preview the materials, print out what you need or bring them on your mobile device.

MEETING LOCATION AND HOUSING
All conference activities will take place at the Hyatt Regency Atlanta, 265 Peachtree Street NE, Atlanta, GA 30303. Reserve a room at the Hyatt by March 12 to ensure availability and lock in the special discount hotel rate of $155 single/double + tax. Make your reservation online at www.ncchc.org/ spring-conference or call 888-421-1442. Be sure to mention NCCHC to receive the special rate.

SPOUSE REGISTRATION
A special rate of $65 is available for spouses or guests of registered attendees. Guest registration provides access to all exhibit hall events, including the opening reception on Sunday evening and the exhibit hall lunch on Monday. It does not provide access to educational sessions nor provide continuing education credit.

PAYMENT AND CONFIRMATION
Registration will not be processed without payment, which may be made by credit card, check or purchase order. Purchase orders are accepted only from government agencies and their contractors, and must accompany the registration form. A $30 fee will be assessed for purchase orders. Online registrants receive immediate confirmation and payment receipt. Registrants submitting via mail or fax will receive confirmation via email within three weeks of receipt. Please bring your confirmation notice when you check in at the NCCHC registration desk. Badges and materials will be distributed on-site when you check in.

CANCELLATION POLICY
Notification of cancellation must be made in writing. Cancellations received by March 21 will be refunded less a $100 processing fee. No refunds will be made for cancellations after March 21. Delegate substitutions are allowed at any time, but NCCHC must be notified in writing. Registrants who fail to attend the conference and do not notify NCCHC are responsible for full payment.

REGISTRATION/SERVICE DESK
Attendees may pick up their badges and conference materials beginning on Saturday at 8:00 am. The desk will be open as follows:

Saturday, April 5
8:00 am – 5:00 pm

Sunday, April 6
8:00 am – 6:30 pm

Monday, April 7
7:00 am – 5:15 pm

Tuesday, April 8
7:00 am – 5:30 pm

FOR MORE INFORMATION
Visit www.ncchc.org/ spring-conference, email education@ncchc.org or call 773-880-1480.

BUILDING BLOCKS FOR SUCCESS
It’s more important than ever to use your skills and resources most effectively. This important conference is designed to help you meet the daily challenges in correctional health care. Here are just a few reasons why you should attend:

• Discover the latest tools and techniques for making health services delivery more cost-effective
• Learn how other organizations have implemented successful programs for improving efficiency
• Develop strategies for meeting national standards in the midst of budget cuts and staffing shortages
• Update and refresh your clinical skills while earning continuing education credit
• Network with colleagues, from top decision makers to in-the-trenches staff, to learn how they are handling the problems that you face every day
• Explore problem-solving products and services
