

Correctional Health at CDC: Beyond COVID-19

Liesl Hagan, MPH

Senior Scientist for Correctional Health

Office of the Deputy Director for Infectious Diseases

Centers for Disease Control and Prevention

National Commission on Correctional Health Care

April 11, 2022

Faculty Disclosure

- I do not have any relevant financial relationships with any commercial interests
- **This informational presentation was developed by independent experts. The information provided in this presentation is not the official position or recommendation of NCCHC but rather expert opinion. This information is not intended to be appropriate for every clinical situation nor does it replace clinical judgment.**
- **NCCHC does not endorse or recommend any products or services mentioned**

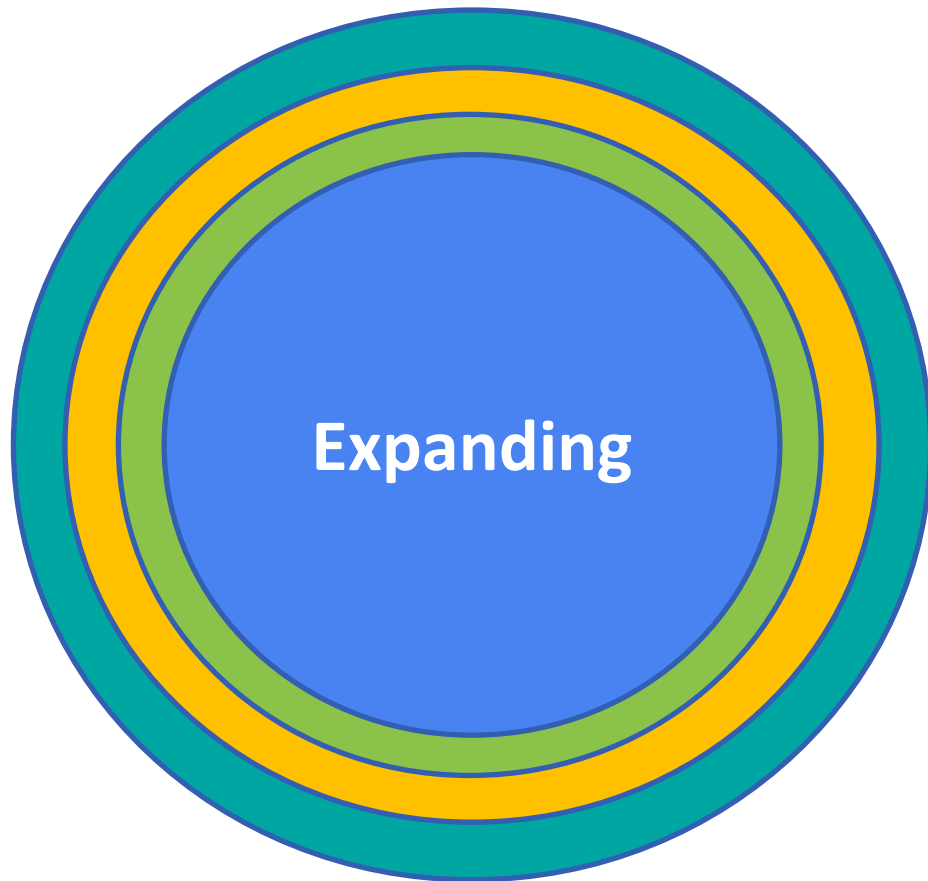

Learning Objectives

- Differentiate between disease-based and population-based approaches to correctional health
- Describe how local jurisdictions can collaborate with their state and local health departments and CDC to advance correctional health
- Discuss health-related best practices and challenges from other facilities

Today's Session

- **New correctional health activities and roles at CDC**
- **Interactive listening session**
 - What are YOUR top priorities for correctional health in your facilities?
 - How do you see CDC's role in this space?

Correctional Health at CDC

Mariel Marlow, PhD, MPH

Correctional Health Coordinator

Center for HIV, Viral Hepatitis, STD, and TB
Prevention

Liesl Hagan, MPH

Senior Scientist for Correctional Health

Special Populations Team

Office of the Deputy Director for Infectious Diseases

CDC Special Populations Team

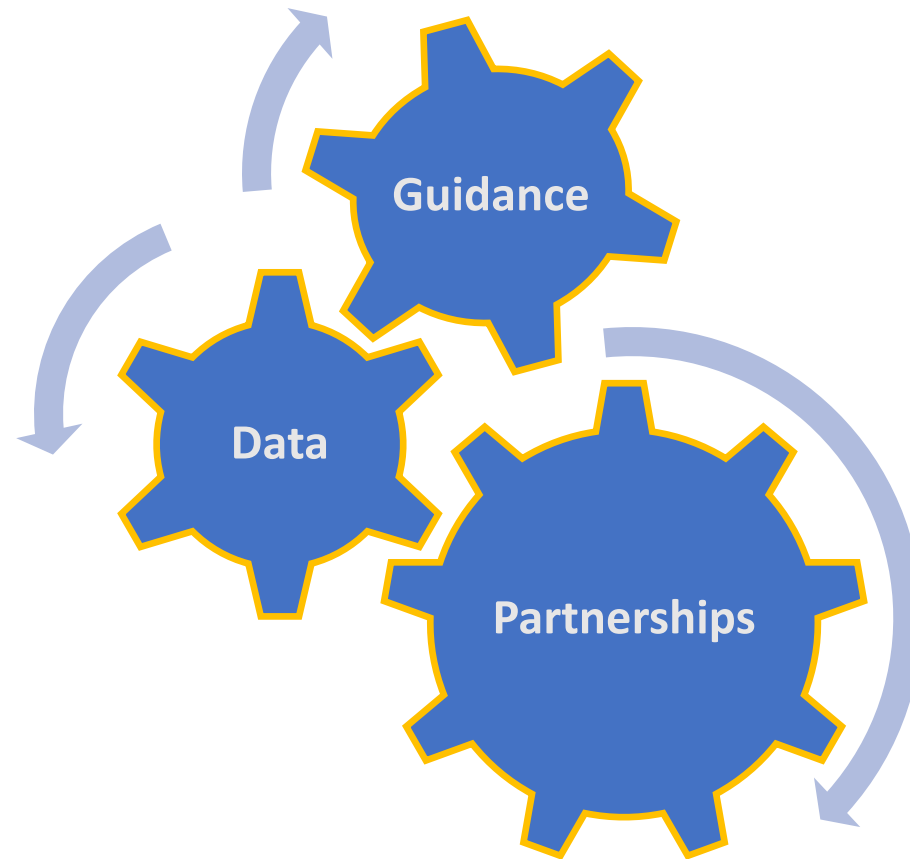

People who are Incarcerated & People Experiencing Homelessness

- **Expand partnerships**
- **Build correctional health capacity at CDC**
- **Expand the evidence base for a population-focused approach**

CDC Special Populations Team

People who are Incarcerated & People Experiencing Homelessness

Today's Goal: Learn what is important to YOU

Session Goals

- Identify your correctional health priorities
- Discuss ways that CDC can work with you in these areas
- Hear your thoughts on how we can keep in touch

Individual Activity

- Write your top priorities on your post-it notes (**1 post-it per priority**)
- Bring them to the front
- Form a group with others with the same post-it color

5
minutes

Question 1: What are the top health priorities you see in your facility/population? (person or systems-level)

(Prompts)

- What keeps you up at night?
- What gaps do you see?
- What do you think could overwhelm the system if it isn't addressed?
- What are the majority of your media/governmental information requests related to health/healthcare about?

Group Activity

- Assign 1 person to take notes and report out
- Discuss as a group
- Save your notes for us, please!

10
minutes

Question 2: In your view/in an ideal world,
how could CDC be a part of a solution for the issues you've identified?

(Prompts)

- **General** – Your view of CDC's role in correctional health broadly
- **Specific** – more of X, less of Y
- **Examples** – things you've seen CDC do to address correctional health that you think worked or didn't work, and why

Priorities - themes

- X
- Y
-

CDC's role – report out & themes

- X
- Y
-

Final Questions

- Fill out the sheet provided
- Drop it in the basket as you leave the session

What are your top 3 priorities from the list we generated?

How do you want CDC to stay in touch with you and your colleagues in the field as our work develops?

Anything else you want to share?

THANK YOU!
