SPECIALTY CERTIFICATION FOR CLINICAL PROVIDERS

Professional Recognition

The CCHP—Clinical Provider credential recognizes expertise among physicians, nurse practitioners, and physician associates/assistants practicing in the specialized field of correctional health care. A professional who has earned the CCHP-CP has demonstrated understanding of the clinical needs of the incarcerated population and possesses knowledge of the unique challenges, legal context and policies and procedures specific to clinical providers practicing in a correctional environment. A CCHP-CP has shown mastery of specialized content developed by experts in the field of correctional health care.

Purpose

Specialty certification as a correctional clinical provider provides validation of a commitment to maintain the knowledge necessary to augment competent and appropriate clinical care to incarcerated patients. The CCHP-CP defines the domain of knowledge unique to practicing in a correctional environment to provide a valid assessment of this knowledge, to encourage continued professional development in the field of correctional health care, and to promote the public's health by encouraging health care quality.
