Correctional health care serves nearly 1.8 million individuals incarcerated in our nation's correctional institutions, people who often have more health needs than the general population and require medical and mental health services and treatments. But correctional health care budgets are tight. Effective solutions are urgently sought.

Correctional health professionals and administrators trust NCCHC and turn to us for resources to improve health care delivery and outcomes. They attend our conferences, visit our exhibit halls, consult our website, and read our publications to discover new products and services.

The Marketing and Resource Guide outlines the many ways your company can gain industry exposure to these results-oriented professionals and provide them with the solutions they need.

By targeting NCCHC's constituents you can:

- Market directly to correctional health professionals
- Reach key decision makers and purchasers
- Build brand awareness by showcasing your products and services

Looking for a marketing opportunity not outlined in the Guide? We will work with you to develop a marketing strategy to fit your budget, whether it's advertising in our publications, exhibiting at our conferences, renting our mailing list, or a combination of approaches for maximum exposure.

We can help you build your business! Contact:
