

Diagnostic Maneuvers You May Have Missed in Nursing School

Marc F. Stern, MD, MPH

American College of Correctional Physicians

U. Washington School of Public Health-Seattle

Disclosures:

1. I do not have any relevant financial relationships with any commercial interests.
2. This informational presentation was developed by independent experts. The information provided in this presentation is not the official position or recommendation of NCCHC but rather expert opinion. This information is not intended to be appropriate for every clinical situation nor does it replace clinical judgment.
3. NCCHC does not endorse or recommend any products or services mentioned.

Learning Objectives:

1. Participants will learn (or relearn) the theory and application of a number of simple bedside nursing assessment maneuvers that are not commonly used, but are very relevant to common conditions encountered in correctional nursing.
2. Participants will attain skill in using these maneuvers.
3. Participants will be motivated to use these skills at the bedside when they return to the clinic.
