

# It's the 21<sup>st</sup> Century – Time to Bid Farewell to “Sick Call” and “Chronic Care Clinic”

**Marc F. Stern, MD, MPH**

American College of Correctional Physicians

U. Washington School of Public Health-Seattle

# Disclosures

1. I do not have any relevant financial relationships with any commercial interests.
2. This informational presentation was developed by independent experts. The information provided in this presentation is not the official position or recommendation of NCCHC but rather expert opinion. This information is not intended to be appropriate for every clinical situation nor does it replace clinical judgment.
3. NCCHC does not endorse or recommend any products or services mentioned.

# Learning Objectives

1. Verbalize how the current care delivery model in most facilities fails to make optimal use of the clinical strengths of its nurses and practitioners
2. Describe the three key components of a new practice model that leverages the clinical strengths of nurses and practitioners
3. Be motivated to redesign the health care delivery system in one's own facility
